Comment on RM-11260

MB Docket No. 05-238

Columbus Community Radio Corporation requests that the Table Of Allocations be amended to include 93.5 MHz in Columbus, Indiana for noncommercial use only. It is our hope that the FCC will allow us to upgrade in the same manner as other stations do, free from competitive speculators..

We seek that LPFM broadcasters be treated as primary services and be granted the same privileges by the FCC.

WHUM, Columbus Community Radio is eager to file our 340 noncommercial application and build a new NCE FM station as soon as possible.

There is no other radio station like WHUM. We promote cultural diversity. We play music from American history and from around the world.

Again, this is the last chance for a full service community educational station for southern Indiana

Very respectfully submitted,

Mitzi Quinn

President

WHUM
